December 7, 2004

To Whom It May Concern:

3M has developed a Paint Protection Film to provide the automotive market with durable protection of a vehicle's vulnerable painted surfaces. Given the complexity of installing this product on a vehicle, 3M requires special skills of the installer to ensure a professional installation of 3M's product.

To impart these skills, 3M works extensively with selected installers to ensure that they are trained in the installation of this product on the painted surfaces of vehicles. The goal of this training is to promote a high-quality installation of Paint Protection Film in accordance with 3M's requirements.

This letter confirms that 3M sales and marketing representatives have worked extensively with Jurgen Stolk and Car Pretty Inc. to ensure that they are qualified to provide installations of 3M Paint Protection Film in accordance with our requirements.

Sincerely,

A handwritten signature in black ink, appearing to be 'M Wortman', with a long horizontal stroke extending to the right.
