Jurgen;

We have now been dealing with you for 5 years and I am writing to thank you for your great service. I encourage all of my customers to protect their cars and SUVs with 3M rock chip protection because it keeps their cars looking good and increases their resale values. Great product and great installation keeps me looking good in my customers' eyes.

I sincerely appreciate your product, your service and the happy, friendly way I am always received by your staff.

Again, thank you.

Mike Grayston
